PROFILE

Experienced Senior Frontend Web Developer with a strong focus on JavaScript, React, Bootstrap, Tailwind. Developed lot of eye catching portfolio and excellent projects. Learning to code since the 7th grade. Motivated, punctual and open-minded, adapts easily to various environments. Can work alone or in team.

WORK EXPERIENCE

I have not yet worked in a formal company setting, but I have completed several substantial projects that demonstrate my capabilities. As a passionate and dedicated front-end developer, I have honed my skills through a variety of personal and academic projects. These include an e-commerce website, a notes application, and lot of animated portfolio, each of which required a strong understanding of HTML, CSS, JavaScript, and other framework.

My Projects

Through my learning journey, I have completed lot of eye-catching projects which proves my skills in this field.

☆ **e-Commerce Web App in React**

Lately, I have completed a fully e-commerce web site (Front-end Only) using React js which contains Admin Dashboard and great minimalistic UI and best experience with lot of features in it.

☆ **Notes App**

A Note Web app which contains lot of features like Recycle bin Custom Theme, Custom Color, Lock notes and more.

☆ **Animated Portfolio**

In my learning journey, I have created tons of beautiful eye-catching animated portfolio using tools like GSAP, Locomotive, AOS, Frame Motion etc.

☆ **And More Other Projects**

Except building e-commerce, portfolio, tools like notes I have built lot more other stuff. eg: A web app which fetches github user information and shows them, Games like tic-tac-toe and many more
